

# HISTORY TREASURE HUNT

Your task is to find the items or places on the grid, you should be able to find these in and around your local area. You can tick each item off as you find it and it would be great if you could take a picture with the item/place, research it or even draw a sketch of it!

What happened to this building? What does the replacement look like?

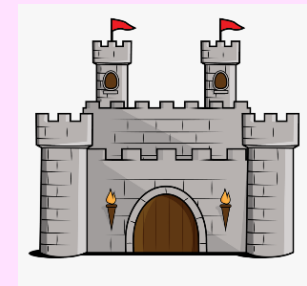

Where is this? When did we stop using it?

Where is this and what was it used for?

A castle – can you find what year it was built?

Where is this? Has anything stayed the same? What has changed?

A statue of a significant person – Who are they?

Somewhere or something from the Jurassic Era dating back between 65 and 200 million years ago.

The oldest item in your house. What year was it made?
